MEECH & COMPANY,

MANUFACTURERS OF

MINING MACHINERY,

Under the Meech Patents,
CLEVELAND, - OHIO.

—THE—
MEECH PROCESS
—OF—
Reducing Gold & Silver
ORES,

is adapted to the treatment of all kinds of refractory and rebellious Ores ; such as Sulphurets, Chlorides, Bromides, Oxides, Sulphates, Sulphides, Tellurides, flour or float Gold; extracting therefrom a higher per cent of precious metal than any other process ; the cost of treatment ranging from \$2.00 to \$5.00 per ton.

The chemical combination encasing each atom of Gold and Silver is broken by bringing the ore to a very high temperature in water, under pressure with chemicals, thus freeing the precious metal, and preparing for amalgamation with Quicksilver which is performed in a positive, simple and economic manner.

We are prepared to make estimates, and contract for the erection of fully equipped plants of machinery, with a capacity of from 20 to 200 tons per day. Personal interviews and correspondence solicited.

OFFICE, 121 SUPERIOR STREET.

Instalment Bonds

—AND—

What They Are.

ADVANTAGES OF THE BOND.

It protects against adversity in business.

It is a protection for Life Insurance Policies.

It is an investment and a protection combined.

It is better than U. S. Governments, and equally as secure.

It protects dependent ones against the contingency of death

It is a safe, sure and desirable investment, and within the reach of all.

It guarantees that a certain amount of money, with interest, will be accumulated in a specified time.

The amount that life insurance would cost should be credited as a profit on the Bond, as it takes the place of such insurance.

The Instalments paid are like deposits in a savings bank, and are returned to the bondholder at his option.

The Bond matures at a specified time, or, at previous death, for its FACE VALUE, and guarantees a definite sum in cash any year after the first.

The Instalments paid on the Bond can be used in business by hypothecating it. This is a great advantage to those who may, at any time, need all the money they can command or raise.

The Company, should the purchaser be unable to pay the Instalments coming due, will advance the amount desired and continue the Bond in force.

The 800,000 policies, representing over two billions of dollars of lapsed or surrendered insurance between 1870 and 1880, would have been saved by these Bonds.

The Bond is not hampered by any conditions or restrictions, and its cash value cannot be impaired or jeopardized.

The Bond affords the very best security, and is negotiable the same as any other bond or stock.

UNDER THIS BOND YOU "PAY AS YOU GO, STOP WITHOUT LOSS, STOP WITH PROFIT, OR CONTINUE FOR GREATER PROFITS."

THE

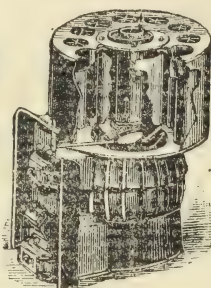

BEECHER FURNACE

By its peculiar construction insures

PURE AIR

AND

PLEASANT HEAT

thereby earning for it the highest ecomiums from institutions of learning, the counting house and the home-circle.

At the lowest temperature to which we are exposed the "BEECHER" maintains its reputation as a reliable heater, affording equal temperature throughout the house, thus protecting alike the occupants and tender house plants.

The "BEECHER FURNACE" being made in Cleveland, especially commends itself to our citizens who desire that most essential element, "pure air," perfectly heated.

Perfection in Plumbing, Steam Heating and
 Sewer Building,
 Daykin Bros., Office 393 Pearl St.

Telephone 1543.

(OVER.)

Our new systems of Plum̄ing, Steam Heating and Sewer Buil̄ing are being adopted by Physicians, Sanitarians and Plum̄ers everywhere. We will take pride in furnishing to any one a list, embracing hundreds of the largest and finest hotels, churches, theatres, court houses, club houses, and private residences, where our plum̄ing, heating and lighting is meeting with unequalled success.

We import, manufacture, or have manufactured for us in large quantities, all the most approved sanitary appliances, the newest and most artistic designs in gas fixtures, and the best working apparatus for heating.

We are in shape to meet the lowest possible price on every kind of goods used for water, sewer, steam or gas, and can fill orders without delay.

Estimates, specifications, advice or prices, cheerfully furnished on application.

FIRE ALARM TELEGRAPH.

OFFICE FIRST FLOOR CITY HALL.

GENERAL DIRECTIONS.

On the breaking out of a fire notice should be immediately communicated to the Department by turning in the nearest signal box

Any person wishing to inform the Department of fire by Telephone will call the City Hall Exchange, giving name and location of the same, and not call any Fire Station.

The locality of the fire will be indicated on the Gongs in the Engine and Police Station Houses, and on the Fire Bells, by the striking of blows corresponding to Number of the Signal Box, or locality nearest the fire.

STREET AND AVENUE GUIDE.

EXPLANATION.

On referring to this Directory, it will be noticed that the names of streets, avenues, etc., follow each other in strictly alphabetical order, without regard to location. To all the *more important* streets and avenues are subjoined the names and numbers of intersecting streets and avenues in the order in which they occur. The letters and figures following the street names are given to ascertain the location of streets and avenues on the MAP. Take for example, St. CLAIR, D-10: On the sides of the Map are the letters A to O; at top and bottom, figures 1 to 17; St. Clair will be found in the angle formed by drawing a line D to D, 10 to 10. Now if you wish to find, say No. 823 St. Clair, by reference to the Guide you will find that St. Clair crosses Case av. at No. 816 and Lyman at 840; hence, the place you seek is between these two numbers, and nearest to Case av. The dash indicates that the corner is vacant, is not numbered, or is occupied by a church or school-house. In locating the small, obscure or more distant streets, pains have been taken to give the line of street cars by which they can be most easily reached.
